ABOUT US

OUR PROMISE TO YOU

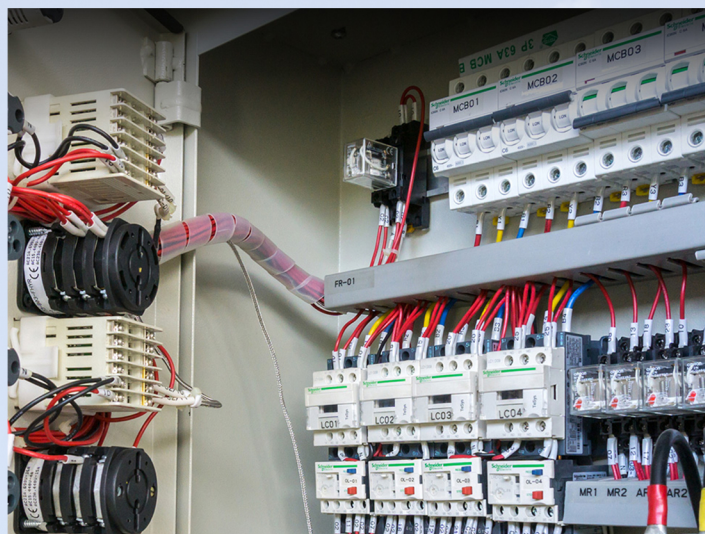

To provide you with real value, outstanding service, and exceptional performance regardless of the size or complexity of your project

Quantum Electrical Solutions have been successfully operating in Pretoria, Centurion and Midrand for over ten years. Over the years the business has developed significantly with lots of procedural and technological advancements but one thing that has remained constant is our determination to achieve the highest possible levels of customer service at all times.

CCTV INSTALLATION AND REPAIR WORKS

We provide real value to all our clients by achieving the best in the industry results and the highest level of professionalism in every service, project, and structure we deliver. Our managing team strives to sustain an environment where all of the team members continuously better their skills and maintain the highest level of proficiency in their respective areas.

DISTRIBUTION BOARDS FAULT FINDING

Our team has earned its place in today's competitive market through a combination of our core beliefs and the consistent delivery of superior services and quality end products. We understand that it takes more than a qualified provider to win the customer confidence, especially when it comes to complex or high-value projects. That is why, from the beginning, our company has been built upon a strong foundation of integrity, honesty, safety, and quality. We build trust-based, collaborative relationships with our clients and industry partners. Quantum Electrical Solutions crew of skilled and experienced professionals combined with our unparalleled dedication to complete client focus makes every project a success.

SUMMARY OF SERVICES WE OFFER AT QUANTUM ELECTRICAL SOLUTIONS

CCTV INSTALLATIONS

We specialize in installation, maintenance and servicing of home and business CCTV systems in Pretoria, Centurion and Midrand. We take care of everything, from the initial survey of the site, CCTV system design, installation, commissioning to maintenance of the installed system.

GARAGE DOORS AUTOMATION

We are your trusted garage door installation company in Pretoria, Centurion and Midrand. Hundreds of garage doors have been successfully installed and maintained in these areas by our professional and accredited installers for the past ten years and we are still counting.

ELECTRIC FENCE INSTALLATION

Quantum Electrical Solutions has a team of qualified and licensed electricians who are ready to attend to electric fence installation in Pretoria, Centurion and Midrand. Electric fence installation can be affected by vegetation, unlawful entry or bad weather.

GENERATOR INSTALLATION

We install generators for your home or office so that in times of load shedding, you will not miss your deadlines or miss your favorite movie. Every home and every office requires a **24** hour presence of electricity therefore it is wise to install a generator at premises so that in times of electrical failure or load shedding, power will be restored.

SOLAR SYSTEMS INSTALLATION

Welcome to Quantum Electrical Solutions, specialists in the design and installation of solar panel systems for domestic, commercial and industrial clients in Pretoria, Centurion and Midrand. We offer an honest, transparent, traditional approach which includes monitoring system performance for two years from installation.

GATE AUTOMATION

As your qualified gate installation technicians, we offer regular maintenance on garage doors in the above mentioned areas. A faulty garage door is a safety hazard for everyone within your household. When a garage door malfunctions, it can potentially close on a vehicle or a person. It may close suddenly or it may fail to open completely as expected.

EARTH LEAKAGE PROBLEMS

SMOKE AND FIRE ALARMS

INTERCOMS INSTALLATION

REPAIR OF APPLIANCES

STATIONARY EQUIP INSTALLATION

HOME & RESIDENTIAL WIRING

TRIPPING CIRCUIT BREAKERS

LIGHTING INSTALLATION

EMERGENCY ELECTRICIAN

RENEWABLE ENERGY

The actual anchor in our world is without a doubt Sustainable Energies. It offers the foundation for the development of the human race on our Planet

PROFESSIONAL SOLAR ENERGY SYSTEM DESIGN & INSTALLATION

Our professional design and engineering teams are considered some of the best energy experts in the industry. We custom design your energy system to ensure it produces more with less – less space and money out of your pocket. Moreover, the design is done based on your facility's existing architecture and your projected electrical needs for the next two decades! Our engineers complete a structural analysis of your facility and produce complete structural design and electrical blueprints.

SMART WIRING & ELECTRICAL SYSTEMS DESIGN

We efficiently design and install electrical systems which are critical to the successful completion of any energy system of any business. This process begins with an energy audit; the analysis and understanding of a facility's power needs.

We carefully plan, design and ensure appropriate sizing and sourcing of equipment such as transformers, switchgears and distribution panels (conversely inefficient planning often results in oversized equipment and unnecessary costs incurred by the facility owner).

Finally, we ensure smart wiring & electrical installation are carried out with precision to ensure building's safety and enhance ability to trace and rectify any electrical faults. Our highly effective electrical engineers ensure the highest Quality and strict adherence to national and international safety codes.
